Keipr User Guide

A quick visual walkthrough to get the most out of your paycheck-first budget.

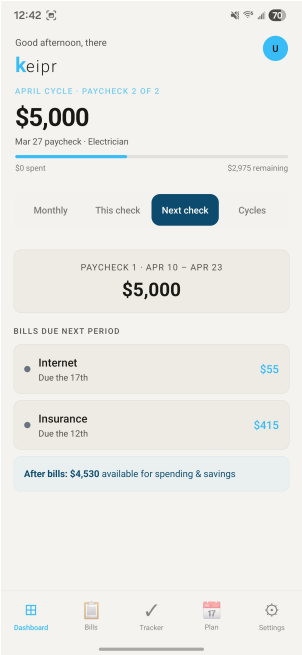
What's Inside

1. Your Dashboard — See your money at a glance
2. Adding Expenses — Set up your bills in seconds
3. Splitting Bills — Spread big bills across paychecks
4. The Tracker — Mark bills as paid each cycle
5. Forward Planning — Plan months ahead (Pro)
6. Connected Banking — Auto-detect expenses (Ultra)
7. Tips & FAQ

Free	Pro	Ultra
Core budgeting · $0	Unlimited · $7.99/mo	Automated · $11.99/mo

1. Your Dashboard

The Dashboard shows your income, expenses, and what's left — organized around your paychecks. Use the tabs to switch views:



Monthly — Full month overview of income vs expenses
This Check — Bills coming out of your current paycheck
Next Check — Preview your next paycheck's bills
Cycles (Pro) — See multiple future pay periods at once

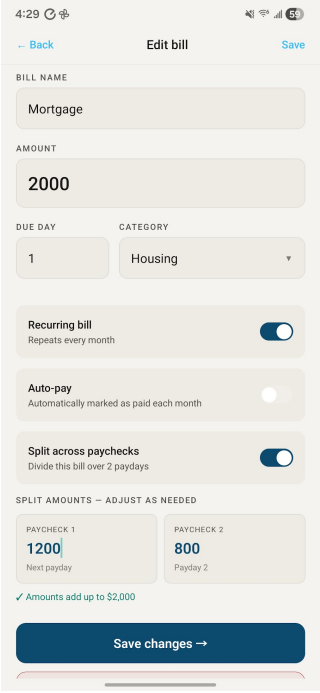
The numbers at the top show your paycheck amount, spending progress, and remaining balance. Below, you'll see the specific bills due in that period with their amounts and due dates.

The green bar shows how much of your paycheck you've used. The "After bills" line at the bottom tells you exactly what's available for spending and savings.

2. Adding Expenses

Tap **+** on the Bills screen to add a new expense. Fill in the name, amount, due day, and category — Keipr automatically assigns it to the right paycheck based on when it's due.

3. Splitting Bills Across Paychecks



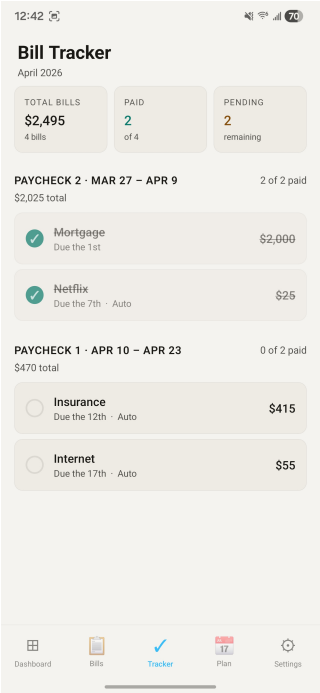
Big bills like rent or mortgage can hit one paycheck hard. Toggle **"Split across paychecks"** to divide the cost across multiple paydays.

In this example, a $2,000 mortgage is split into $1,200 from Paycheck 1 and $800 from Paycheck 2. You can adjust the amounts however you want — Keipr confirms they add up.

Each split shows up in the correct paycheck on your Dashboard and Tracker.

Tip: Free users get 1 split per bill. Pro and Ultra get unlimited splits.

4. The Tracker



The Tracker is your paycheck-by-paycheck checklist. Each cycle, it shows every bill that's due so you can mark them off as you pay them.

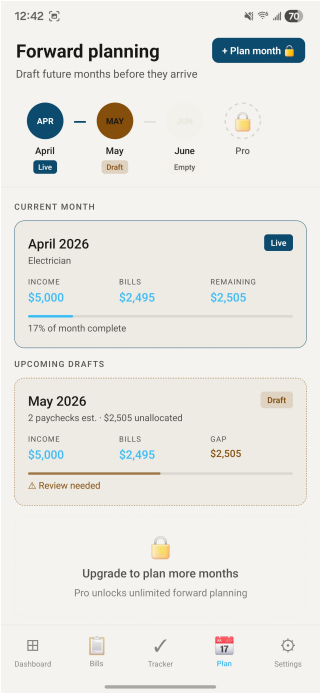
The summary at the top shows your **total bills**, how many are **paid**, and how many are **pending**.

Bills are grouped by paycheck period. Tap the checkbox to mark a bill as paid — it gets a green checkmark and strikethrough.

Split bills show each paycheck's portion separately so you can track each payment individually.

Ultra users: Bills matched to bank transactions are auto-verified with a bank badge — no manual tracking needed.

5. Forward Planning



Pro Feature

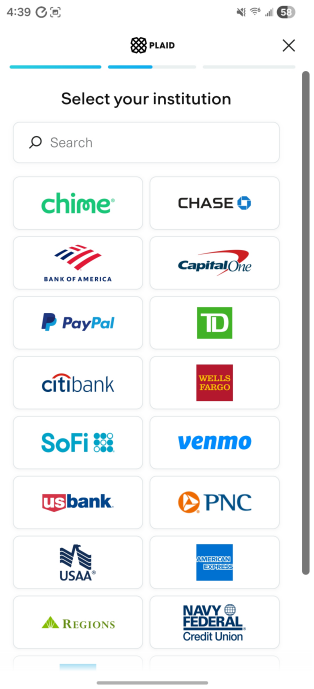
Plan your budget months into the future. The current month shows as **"Live"** with real income and expense data. Future months appear as **"Drafts"** so you can preview what's coming.

Each month card shows your projected income, bills, and remaining balance. Rollover balances carry forward automatically.

Free users can plan 1 month ahead. Pro and Ultra unlock unlimited forward planning.

Also included with Pro:
Unlimited income sources, unlimited bill splits, one-time fund tracking, paycheck cycle view, spending trends, and budget export (PDF & CSV).

6. Connected Banking



Ultra Feature

Connect your bank securely through **Plaid** — the same service used by Venmo, Robinhood, and thousands of other apps. Keipr never sees your login credentials.

Once connected, Keipr automatically:

Detects recurring expenses from your transaction history — subscriptions, utilities, loan payments, and more. Review and confirm with one tap.

Matches bank transactions to your bills and auto-verifies payments in the Tracker — no manual check-offs needed.

Shows live balances across all connected accounts, full transaction history with merchant logos, and spending velocity tracking.

AI-powered optimization — auto-confirms obvious expenses, fixes categories, assigns bills to the right paychecks, and detects savings patterns.

All data is encrypted with 256-bit encryption. You can disconnect or delete your data anytime.

7. Tips & FAQ

How is Keipr different from other budgeting apps?

Most apps only show a monthly view. Keipr lets you budget by paycheck, by month, or plan months ahead — so your budget matches how you actually get paid.

What if I get paid biweekly?

Keipr is built for exactly this. Set biweekly as your pay frequency and your bills automatically sort into the right paycheck.

Can I split a bill across paychecks?

Yes! With Pro or Ultra, split any bill across multiple paychecks. Free users get 1 split per bill.

Is my bank data safe?

Yes. Bank connections use Plaid with 256-bit encryption. Keipr never sees your bank login credentials.

What happens if I cancel?

Your data is preserved. You drop to the Free tier. Upgrade again anytime and everything is right where you left it.

Can I use Keipr on the web?

Yes! Visit keipr.app and sign in with the same account. Your budget syncs across all devices.

How do I contact support?

Email contact@keipr.app or reply to any Keipr email. We typically respond within 24 hours.

Free — $0 forever | **Pro** — $7.99/mo | **Ultra** — $11.99/mo

Annual billing: Pro $6.99/mo · Ultra $10.99/mo

A budget that finally fits your life.
